

Help Wanted

Virtual Teaching Help / Childcare / Tutoring

In the past we have employed many wonderful UMW education students and would love to ensure that your current students are aware of our hiring event on September 24th. We will be interviewing at Ron Rosner YMCA for child care positions for Stafford, King George, Spotsylvania and Caroline County. Positions include counselors for our Virtual Learning Centers and our before and after school program (pending the move to the hybrid model). Interviews must be scheduled in advance. Interested students may email their resumes and transcripts to:

Virginia Arrington- Varrington@family-ymca.org (Caroline & Spotsylvania Counties)

Katie Bates- Kbates@family-ymca.org (Stafford and King George Counties).

I have two children and I am looking for support from 8-12 each weekday with our virtual learning program through Stafford County Public Schools.

The children are 9 (4th grade) and 5 (kindergarten). The 4th grader can largely work independently but often has questions on instructions or may need technical support with the virtual learning tools (ie, Canvas or Google classroom, etc.).

The kindergarten student needs a much more "hands on" approach.

They have virtual morning meeting from 8-8:30 every day. On Monday, Tuesday, and Wednesday, they work asynchronously through a guided plan on the computer and then can supplement their learning with programs like Dreambox, Seesaw, etc. On Thursday and Friday, they have synchronous learning with their teachers. The 4th grader should not need any support during this time. The kindergartner will need help finding the required supplies at the right times, muting and unmuting when instructed by the teacher.

I'm not sure how much class schedules would conflict with these hours, so I would be willing to split the shifts based on availability.

I work full time from home, so I will be available during the day in another room as needed. But I do need to focus on my own web meetings as well. So I am looking for someone to proctor them for those 4 hours as much as possible. Morning snacks and beverages can be provided or the team member can bring their own food and beverages to store in the family refrigerator.

Interested parties can reach me at this email address (Chrissip11@aol.com). We are located in North Stafford, off route 610. Our school is Rockhill Elementary and we are within 1 mile of that building. The job would be for as long as virtual learning is our educational reality and will flux with however the school district adjusts this plan over the coming months.

Depending on experience, \$15-\$20 an hour to watch our 5-year-old autistic, Courtland. He is verbal, sensory seeking, and a lot of fun. We want someone who will mostly help him with some of his kindergarten activities in person (come to our house) and wear a mask while inside. This person could do the following with him - swim with him, go to the playground (within walking distance), help him with art projects, help him work on his letters or online school work, read books to him, etc. They would need reliable transportation and the hours are somewhat flexible, mostly during the day Monday and Tuesday 10 AM - 3 PM , and possibly from 1:30-3:30 PM Wed, Thurs, or Fri afternoons.

Kim - cell: 703-615-5695

We are looking for someone to watch our two boys, ages 6 and 4, on Wednesdays from 8:30-5. The 6 year old is in first grade and starting the year virtually, so will need supervision/help with his work. Both love reading, board games, imaginative play, playing outside and riding their bikes.

Please contact me at shannonsbaker@gmail.com if you are interested.

I am reaching out to see if any students would be available to help my son with his virtual learning program. He is a 1st grader at Brock Rd. Elementary and his virtual learning time is from 9:30-11:40 Mon/Tues/Thurs/Fri. Andrew has single-sided deafness in the left ear and high anxiety. He currently has an IEP in place. Please let me know if any students would be interested in assisting him with in-person services at our home. We live in Spotsylvania.

Thank you!
